What we love about sling

Here in Japan we think of slings as " magic fabric".

They allow carrying in that close skin to skin style
which has enormous benefits for baby.

It can stabilise their breathing, blood sugar, temperature
and heart rate as well as provide that safe womb like cocoon
that baby is so used to.

It is a beautiful way to bond with baby while going about your day
to day routine.

Durable and Safe 150kg
rated Aluminium ring

Tail part.
When you carry a newborn baby, this part woud be
neck support of your baby. (Fpr more information, please check page6-7.)
