

SuperCircuit

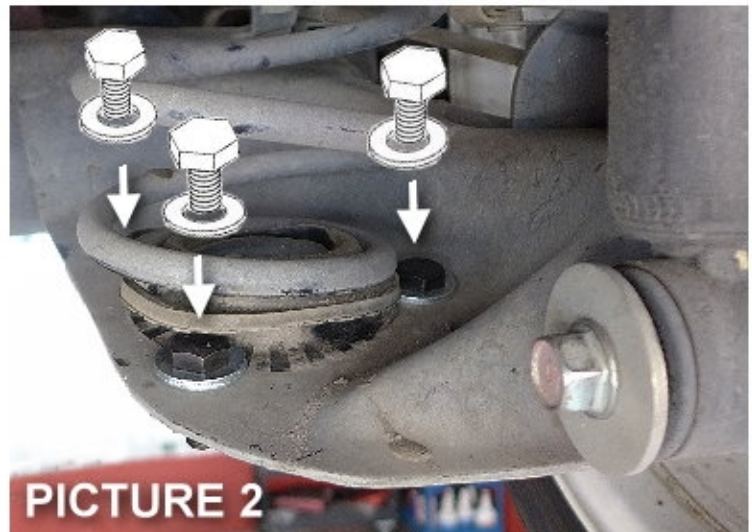

Thank you for the purchase. The SUPERCIRCUIT Rear Anti-roll Bar made for the Proton PERSONA (BH)/ IRIZ comes with the anti-roll bar, brackets, bolts and nuts as shown in the picture above.

STEP 1 - Remove the bolts at the bottom of the shock absorber struts (PIC. 1) to bring the rear torsion beam axle lower and the springs can be lifted up to insert the bolts from within the *spring seats* (PIC. 2)

PICTURE 1

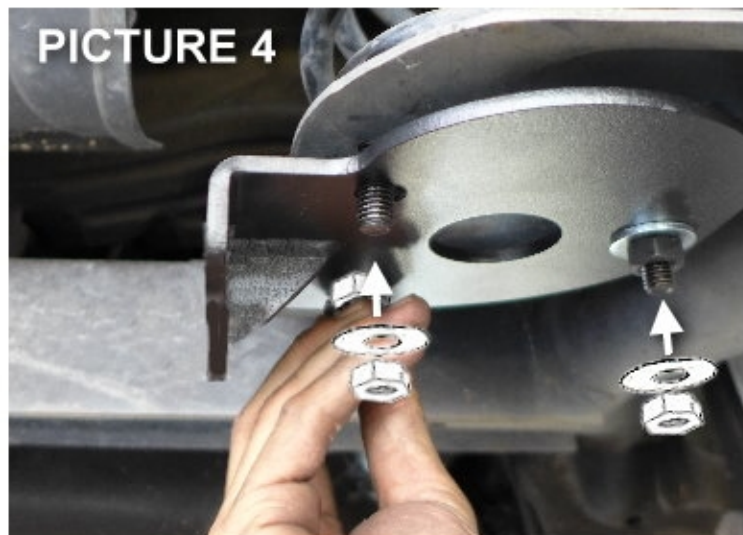

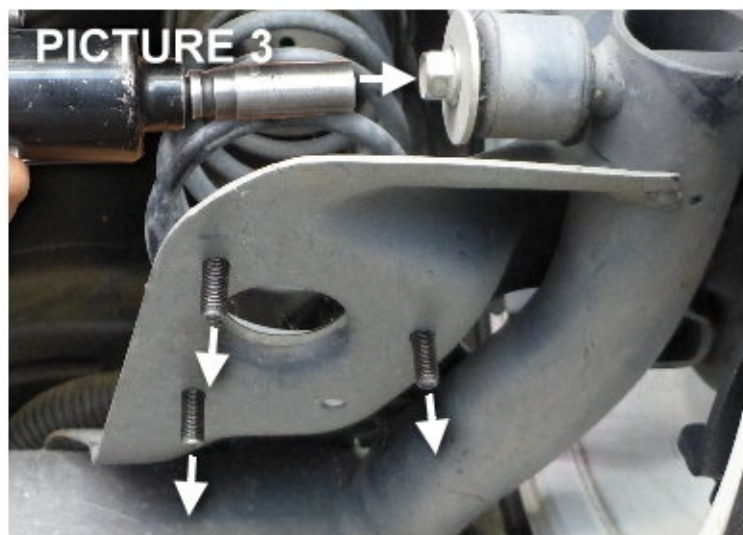

PICTURE 2

STEP 2 - Push the rear torsion beam axle back in place and tighten the bolts at the bottom of the shock absorber struts (PIC.3).

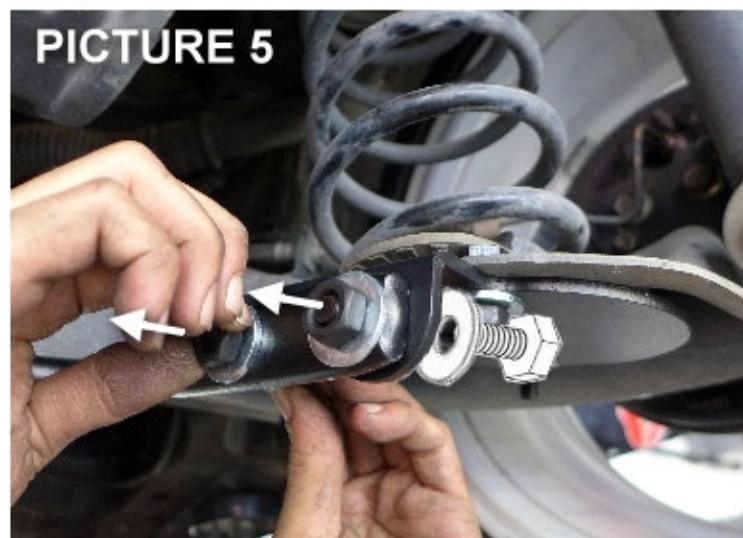

Place the brackets of the SUPERCIRCUIT Anti-roll Bar under the spring seats and fasten the nuts (PIC.4)

DO NOT FULLY TIGHTEN THE NUTS. ALLOW FREE PLAY FOR FURTHER ADJUSTMENTS IN STEP 4.

STEP 3 - Fasten the SUPERCIRCUIT Anti-roll Bar to the brackets by inserting the provided bolts and nuts as shown in the picture below (PIC.5)

STEP 4 - Tighten all bolts and nuts with torque wrench.

Should you need any further assistance during the installation, please contact SUPERCIRCUIT BARS, Tel: +6 03 5632 2855 or send us a message on Facebook:
