Take advantage of over four decades of trusted innovation designed to keep you working faster.

Design for the challenges of today and tomorrow

Leverage the latest features, and performance enhancements whether you are on a PC, Mac, mobile device, or on the web.

New in AutoCAD LT 2025

Smart Blocks: Search and Convert
Quickly search your drawings for objects to convert into instances of a newly defined block, an existing or recently used block with the help of Autodesk AI.

Hatch Improvements
Bring clarity to your designs with convenient updates to the familiar HATCH command. Add texture to your drawings through patterns, fills, and paths—without pre-defined shapes or enclosed boundaries.

Activity Insights Updates
Stay informed with access to essential design data with detailed multi-user event logs—tracking for over 35 activity types including version history and file comparison tools—with support for files managed on Autodesk Docs, stored locally, or on third-party cloud storage.

ArcGIS® Basemaps
Ground your site plans with real-world geographical information. Access five Basemaps in the form of high-resolution satellite and aerial imagery, OpenStreetMaps and Streets, along with light and dark gray monochrome map styles.
Recent AutoCAD LT features

AutoLISP
Use AutoLISP to streamline workflows and enforce CAD standards through automation. Leverage thousands of previously written programs created for use in AutoCAD-based programs. Supports file types LSP, FAS, and VLX.

Smart Blocks: Placement
Automatically place blocks in your drawing based on where you've inserted the same ones thus far in your DWG file, reducing the number of clicks and saving you time in the process.

Count
Automate the counting of blocks or objects within a selected area or throughout your entire drawing with a menu to identify errors and navigate through your counted objects.

Trace
Add design change notes and markups without altering your existing drawing from AutoCAD desktop in addition to the web and mobile apps.

Push to Autodesk Docs
Push your CAD drawing sheets as PDFs to Autodesk Docs from AutoCAD.
