ABOUT US

Established in 2015, las Origine is a creative floral studio located in North Jakarta. The name 'las origine' itself is derived from a French word, meaning the root or the origin; the point where something begins. We believe in building deep-rooted relationship, and we think that flowers have always been a way to convey people's most profound emotion better than any other messages. Unlike other traditional florist, we always aim to collaborate innovation and new design into our arrangement, without leaving the aesthetic beauty of the flower itself.

To date, we have become one of the most go-to-florist in Jakarta and have been trusted to work with international brands such as Google, Marc Jacobs, Jo Malone, SK-II, Charles & Keith, and many more.
