

The following is official product information for the Silhouette Cameo® 4 Pro.

Product Description:

Meet the biggest machine in the Cameo 4 series—the Silhouette Cameo® 4 Pro. It's a precision cutting machine that can cut vinyl, heat transfer, cardstock, fabric, and more. With a cutting width of up to 24 inches wide, this machine opens up a lot of cutting possibilities.

Machine features include:

- 24-inch cutting width
- Adjustable roll feeder for rolled materials with widths up to 24 inches
- Built-in crosscutter to trim vinyl or heat transfer right from the roll
- Matless cutting capabilities (see Tech Specs for full details)
- Compatible with additional tools (sold separately) for more cutting options
- 3 mm clearance
- Automatic tool detection capabilities
- Sleek, compact aesthetic with a sliding lid and a backlit, feather-light touch panel
- Wireless cutting with Bluetooth® connectivity
- Print & Cut registration capabilities
- PixScan™ compatible
- Driven by Silhouette Studio®, giving you limitless design options to customize your projects
