

DPI GRAFIX C3338 SERIES ART CANVAS

Technical Data Sheet

Introduction

DPI GRAFIX C3338 Series art canvas is 380gsm white printing canvas, composed of full cotton. Application: pictorial Art / antique painting / advertising / commercial and civilian indoor decoration / simulation of oil painting.

Features

- Pure cotton as base material
- 3 layers of priming treatment
- Resist to fold, not cracking
- Good texture, good glossiness of picture, light resistant, anti-aging performance

Characteristic	Value
Base fabric	Full cotton
Coating	Acyclic coating
Thickness	380gsm
Surface	Gloss or Matt
Durability (unprint, vertical)	24 months
Ink compatibility	Latex / UV / EcoSolvent
Size available	1.07m / 1.27m / 1.52m (x30m)

Printing

Do not exceed 250% total ink coverage. Too high a total physical ink amount on the film results in media characteristic changes, inadequate drying, over laminate lifting, and/or poor graphic performance.

Latex Ink: Flawless output

UV Ink: Flawless output

EcoSolvent Ink: Flawless output

Shelf Life and Effective Performance

For unprocessed film, shelf life is 12 months. Store the film in a dry area, in the original container, out of direct sunlight and at less than 24°C.

The effective performance life is based on field experience and exposure tests conducted by lab. The actual performance depends on correct combination of film, ink, over laminate or clear coat; drying methods; selection and preparation of the substrate; application methods; orientation and exposure conditions and cleaning methods

The information mentioned above always represents an average, a minimum or a maximum value. It is only give for your information, and does not give any guarantee. It is up to the end user to decide whether or not the product is suited for his particular application.
