

## 1

Place base on a flat, level surface only.  
Push 4 rubber feet onto base as shown.  
Lower main section of rack onto base.  
Grub screws face back.  
Tighten grub screws.

## 2

Insert top section into tubes of  
main section.

## 3

Insert support arms as shown into holes  
on main section. Bend upwards.  
Tighten cap screws with allen key.  
Ensure all fixings are fastened tightly.
