INTRODUCTION

Welcome to the Alterseat Team and thank you altering your ergonomic experience with us. This product is manufactured and designed solely by Alterseat (M) Sdn. Bhd.

We specialize in producing and manufacturing **office chairs** for **over 20 years** including other furniture.

Before proceeding into this manual, ensure that after unpacking and before any assembly, all items and parts of installation are clear of any damages. If there are any damages found, immediately contact our **customer service number 03-5033 2690** for assistance.

This product is intended for indoor use. Kindly take time to **read and follow the instructions provided** in the following pages. Install as described and guided in this installation manual. **We accept no liability for damages caused for any improper use.**

From,

Team Alterseat

PARTS OF THE CHAIR

TOP PIECE

LEG

HEAD PIECE

ATTACHING THE HEADREST

HEAD PIECE

A

B

INSTRUCTIONS

- A. Using the *Allen Key* provided, remove the 2 screws (loosely attached) to the headrest area of the top piece.
- B. Align the headrest according to the 2 *pilot holes* and tighten the screws with the same *Allen Key* provided.

INSERTING THE ACRYLIC TAG

ACRYLIC TAG

Clip from the bottom

C

INSTRUCTIONS

C. Gently insert the *Alterseat Acrylic Tag*, starting from the bottom of the tag. You will hear a 'Click' sound when it is tightly locked.

CONNECTING THE BACK PIECE

BACK PIECE W SEAT PIECE

D

E

INSTRUCTIONS

- D. At the base of the back piece, *remove all 3 screws* that are loosely attached with the *larger Allen Key* provided.
- E. Align the back piece to the seat piece. *Reattach the 3 screws in the same triangle shape*. Tighten with *Allen Key* provided

CONNECTING THE BACK PIECE

BACK PIECE W SEAT PIECE

F

INSTRUCTIONS

F. If your seat looks like this, *congratulations!* You have successfully connected the back piece and seat piece together. You have now assembled the Top Section of your chair. Keep going!

CONNECTING THE GAS LIFT

GAS LIFT W ALUMINUM BASE

G

INSTRUCTIONS

G. Insert the wider end of the *Gas Lift* into the *Aluminum Base*.

Note: No 'click' sound will be heard.

CONNECTING THE TOP PIECE W LEG

TOP PIECE W LEG PART

* Perform this step by
slanting at an angle *

H

INSTRUCTIONS

H. Slant the 'Top Piece' on one side. Then insert the 'Leg' from a side angle to connect both segments together.

CONNECTING THE TOP PIECE W LEG

TOP PIECE W LEG PART

I

INSTRUCTIONS

- I. Once both parts are successfully connected, lift your chair in an upwards and straight direction. You are now ready to sit with Alterseat!

Alterseat
