

PE SOFTGELS

Advanced Formula

Placenta Extracts + Marine DNA Cellular Components

The Swiss Original

in Cell Therapy & Placenta Extracts

since 1991

The "Rolls-Royce" of Nutritional Supplements

**Buy Swiss Original,
Buy MFIII !!!**

Clinically Proven Exquisitely Refined Distinctly Swiss

Ovine Placenta & DNA Cellular Extracts obtained from stringently selected and certified closed colony sheep of 40 generations reared in pollution-free pastureland.

Swiss certified authenticity with distinctive genuine features

Exclusive Swiss Packaging with individual perforation to provide added protection & convenience.

STAMINA
FLEXIBLE JOINTS
AESTHETIC LONGEVITY

*Look Young,
Feel Young,
The Swiss Way*

- Certified by high quality standards of ISO 14001, TQM (Total Quality Management), HACCP and FDA compliance
- HALAL certified, SCES and SIS
- Met specific requirements of Qualified Responsible Chemists, Pharmacists, Toxicologists and Quality Controllers
- GLP (Good Laboratories Practice) conditions and Bio-HC clinically tested
- Complied fully with the requirements of European Council and Swiss cGMP (Current Good Manufacturing Practice), the highest GMP status in manufacturing.

MFIII of Switzerland has a longstanding history in the research & development of Cellular and Placental-based nutritional supplements. Equipped with specialised knowledge in cellular therapy, stem cell and the latest ultra-filtration extraction technology, **MFIII of Switzerland** invented the first cellular therapy oral supplement product in the world, using unrivalled hi-tech softgel capsules that can preserve the complete bioactivity of the DNA cell extracts, presently known as the **MFIII of Switzerland PE Softgels Advanced Formula**.

REGENERATION

MFIII proprietary cold-extraction Celluxinis™ proteolytic enzyme technology was uniquely developed by our scientists to extract the fresh placenta in its purest form while maintaining its highly concentrated and potent bioactive ovine cellular extracts, i.e. the bioactive cellular materials embedded within the PE Softgels are pure and raw placenta extracts.

No heat application is utilised throughout the process of extraction. This is in contrast to all other placental brands in the market where intense heating of 125°C-185°C are involved in a process known as lyophilisation. **MFIII of Switzerland** is the ONLY unrivalled supplier of Swiss manufactured Placenta Cellular Extracts in bioactive hi-tech softgels. **MFIII of Switzerland PE Softgels** is NOT a drug as it contains no chemicals but only natural ingredients of the highest quality.

MFIII of Switzerland PE Softgels Advanced Formula is the world's only **Ovine Placenta** that are procured from an **EU state-certified closed colony of healthy sheep of 40 generations which are bred in pollution-free pastureland (surpassing the requirement of USDA-FDA, WHO & AAALAC)**. **MFIII PE Softgels Advanced Formula** is a highly potent nutritional supplement to slow down ageing process, ameliorate ageing conditions, and re-impart health and vitality. The PE cell culture is 99% water soluble and is from pure raw materials without any foreign contents. **MFIII** Ovine Placenta Extract proteins are particularly compatible with the human body and trigger no immune reactions.

MFIII PE Softgels Advanced Formula has a rich source of nutrients coupled with growth factors and bioactive cytokines. The potency of these softgels is further enhanced by 3 main active ingredients: **Highly Polymerized Marine DNA cellular extracts**, **Protein M** with high content of Chondroitin Sulfate and **Collagen Elastin HME**.

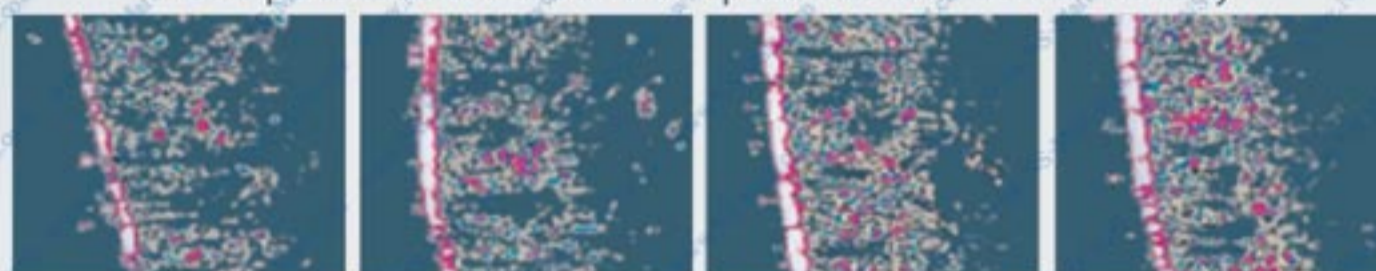

The packaging comes in 3 times stronger airtight NASA-grade aluminium foil blister pouch to ensure full protection, quality & freshness

Scientific studies concluded that placenta contains high level of special proteins which promote cell growth, regulate hormone secretion and strengthen the immune system. It has been proven through double-blinded placebo-controlled clinical studies at the Clinical Skin Testing Department, Swiss Skin Testing Institute in Neuchâtel, Switzerland that **MFIII PE** enhances and invigorates our bodies with a wide range of health benefits.

FROM WITHIN

Swiss Independent CRO Institute's Clinically Proven Evidence of a Skin Replenishment Effect

Computerised ultrasound of epidermis and dermis density

Day 0

Day 28
(+8% density)

Day 56
(+26% density)

Day 84
(+40% density)

Example of dermis density increase

(Source: Double-blinded placebo-controlled clinical studies at the Clinical Skin Testing Department)

PROVEN RESULT: 46-Year Old with a Skin Density of 20-Year Old

(On skin microrelief, average roughness, forearm, etc)

Before Treatment

1 Month

2 Months

3 Months

-21% roughness

With all these innovative attributes designed in the softgels, **MFIII of Switzerland PE Softgels Advanced Formula** effectuates an unrivalled potency for regeneration and rejuvenation, and stand out as the world's premier anti-ageing nutritional supplement, evidenced by the favorable recommendations of dermatologists and other professionals worldwide.

MFIII delivers the ultimate lasting solution to your well being.

MFIII of Switzerland PE Softgels Advanced Formula -
A total Regeneration from Within.

BENEFITS OF OUR UNRIVALLED SHEEP PLACENTA & DNA CELLULAR EXTRACTS

RENEWED STAMINA, VITALITY AND LONGEVITY

- Resist the effects of ageing, correct imbalances and repair damaged cells
- Strengthen the body's natural detox system to improve digestion and assimilation
- Improve stress response and balance energy levels
- Enhance overall health and longevity
- Balance and purify the reproductive system
- Strengthen sensory function
- Promote general health and physical vitality
- Promote cell growth and regulate hormone secretion
- Reduction in pre-menopausal syndrome
- Improvements in alertness, vitality, stamina, vigor and mental ability

STRENGTHEN IMMUNE SYSTEM

- Support speedy recovery from illness and poor state of health
- Act as an energy booster to overcome feeling of weakness
- Promote effective functioning of the immune system
- Prevent premature degeneration of the body cells
- Promote postnatal recuperation to regain original health
- Deeper and relaxing sleep with better eyesight and senses
- Decrease in PMT (Premenstrual Tension) and related feminine problems
- Stimulate circulation and metabolism

IMPROVEMENT IN SKIN COMPLEXION

- Improvement in finer skin texture and a more even skin tone
- Improvement on lightening of facial pigmentation
- Promote skin glow (Radiance)
- Strengthen skin cells against premature photo-ageing and chronological ageing
- Enhance protein synthesis to maintain youthfulness
- Fine lines, wrinkles and crowfeets reduction
- Synthesize collagen resulting in flawless, moisturised and radiant complexion
- Repair free-radical damage cells; therefore, slow ageing process
- Improvement in skin elasticity, texture and thickness

STRONGER BONES AND FLEXIBLE JOINTS

- Boost body's natural repair process
- Support health joints and mobility
- Improve range of motion, support joint lubrication and reduce minor pains and aches
- Nourish muscles and bones
