WHO WE ARE?

We began with a simple observation:

Countless Malaysian women, especially mothers, possess valuable skills but lack opportunities to build sustainable livelihoods. Many depend on daily wages from home-based work, with savings that barely last a month.

As Malaysia's accredited social enterprise, we bridge this gap by creating a whole-rounded ecosystem. We combine hands-on skills training through modern business education, while our corporate partnerships provide real market opportunities.

Every Ibupreneur initiative represents a woman's journey from financial dependence to entrepreneurial success - **transforming lives, one at a time.**
