

JQ12

Power : 220-240V / 50 Hz / 700 W

Speed : 3000 rpm

Pulp Container : 7 Liter

N.W. / G.W. : 13.2 / 14.7 Kg

Packing Size : 473 X 246 X 522 mm

Alpes Commercial juicers are designed to extract juice from fruits and vegetables in large quantities for commercial use, such as in juice bars, health clubs, cafes, and other busy foodservice operations.

This high-performance juice extractor features a durable stainless steel construction, a powerful 700W motor, and a large pulp ejection system 7L for easy cleanup.

FEATURE

- Powerful electric brake which will shut the machine down in less than 2 seconds if you open the safety arm while the juicer is running
- Stainless steel motor housing, bowl, juicer basket, grating disc & locking bar
- Induction direct drive motor for intensive use
- Extraction rate : 120L/Hr., equivalent to one glass of fresh juice every 7s
- High clearance (210 mm), allowing a jug or cocktail glass to be placed underneath the spout
