FILTRATION BEYOND STANDARDS

Effectively removes sediments, limescale deposits, bacteria, heavy metals and bad odours.

Filter 1

Pre Activated Carbon Filter

Filters out large particulates such as dust, rust, sand, deposits, etc.

Filter 2

Reverse Osmosis Membrane

Filters out small particulates up to 0.0001 microns.

Filter 3

Mineral-Rich Activated Carbon Filter

Increases pH level, adds essential minerals, reduces odours, and improves the taste of water.

Twist, pull, replace.

Changing the filter is as easy as changing a battery.
