Foot Pocket Width 77mm / 3 inches Foot Pocket Length 204 mm / 8.03 inches

O SELECT

HOW TO SELECT FIN SIZE ACCURATELY

01

Measure the length of your bare foot from the back of the heel to the top of the big toe for foot pocket length

<u>02</u>

Measure the width of the bare foot between the two widest points for foot pocket width.

03

Compare your foot measurements against the foot pocket length & width measurements of the different MerFin sizes.

<u>04</u>

The measurements of your bare foot must be less than the measurements of the foot pocket length & width of the MerFin you select.

SK.

PLEASE NOTE:

- \cdot This chart will not print to scale, it is for demonstration purposes only to show how to measure your feet.
- · You must use your own ruler to measure your feet correctly as return postage fees apply to exchange sizes.
- · Shoe sizes are provided as a rough guide only as all shoe manufacturer sizes vary and all international shoe size conversion charts vary.
