Beauty & Spa Moments

*Their revolutionary **PEEL-OFF TECHNOLOGY** developed by **CASMARA** Laboratory allows the masks to set on the skin, adapting perfectly to the facial contours to treat all areas, even the most delicate parts, such as around the eyes. Their removal is unbeatable: by gently lifting the edges, they are removed in one piece, without the need to rinse, and leave no residue on the skin, just their amazing results!*

*True **HOLISTIC COSMETICS**, the perfect combination of cosmetic and sensory actions to hydrate and firm the face while providing unique sensations. Their occlusive ice effect provides a pleasant feeling for a true moment of well-being.*

*Made with a **SECRET FORMULA** in 2 phases, powder + gel, with multi-action active ingredients and precious marine algae from Brittany (France), carefully selected for their exquisite properties to pamper your skin with the most expert care.*

HOW DO THE **ALGAE PEEL-OFF MASKS** WORK ON THE SKIN?

1. ICE EFFECT: the masks are concentrated with an ice-cold power, which provides an extraordinary intense **“healthy glow”** in an instant. This achieves an overall improvement in the complexion, evens the tone and softens all signs of fatigue, such as eye bags and dark circles.

2. TRIPLE LIFTING EFFECT: powerful **firming** and **toning effect** that improves the facial muscle tone, strengthens the network responsible for skin firmness and **“plumps”** the skin, redensifying it. The result: firm face, smoothed wrinkles and defined facial contours.

3. SMART HYDRATION: rich in marine algae, carefully selected for their advanced properties, their formulas provide an **ultra-hydrating** action. They form a film over the skin, which provides extraordinary hydration, maintains the perfect moisture level and prevents dehydration.

In 20 minutes, you will be amazed by their extraordinary effects on your skin. **ALGAE PEEL-OFF MASKS**, the expert care that provides an exquisite halo of beauty for stunning, visibly younger-looking skin.

HOW TO APPLY THE MASK KIT?

STEP 1. *Cream.*

Massage a few drops of cream over your face before applying the mask and after removing it, if required. Keep the rest of the cream to use when you apply the second Algae Peel-Off Mask.

STEP 2. *Mask.*

Pour the contents of one of the phase 1 sachets and one of the phase 2 sachets into the lid of the container (bowl) for mixing. Stir with the spatula for around 40 seconds until you get a homogeneous result.

Beware! You must do this quickly, as the mixture starts to set as soon as phase 1 and phase 2 are mixed together.

Next, apply the mask to your face. To apply it correctly, load the spatula with a generous amount of mask and start to spread it over your face without applying too much pressure, so that it glides over your skin.

Start by covering your forehead from left to right, including the temples. Then, cover your cheekbones and cheeks, first on one side and then the other, using upward movements from your nose and lips towards your ears. Next, cover your nose. Finally, cover your jaw, chin and lips. The mask should cover your entire face, except for your eyes.

Now, relax and leave the mask on for at least 15 minutes.

NOTE: it's important not to leave any areas of the face uncovered, as this will make the mask hard to remove.

IMPORTANT NOTE: the mask must be applied in under 4 minutes to prevent it from setting.

STEP 3. *Remove the mask.*

After 15 minutes, we recommend lifting the mask by the edges and removing it in one piece from top to bottom. There is no need to rinse with water. The result: radiant skin.

We advise you to relax while the mask sets on your skin to make this experience a true moment of relaxation and wellbeing.
