A large, glowing crescent moon dominates the upper half of the frame, its bright, golden-yellow light curving across the dark, starry sky. The moon's reflection is visible in the dark, rippling water at the bottom of the image. Several small, distant stars are scattered across the background.

The moon's energy has the power to  
control the ebb and flow of the oceans  
& impact our mood & behaviors –  
making it a highly influential force.

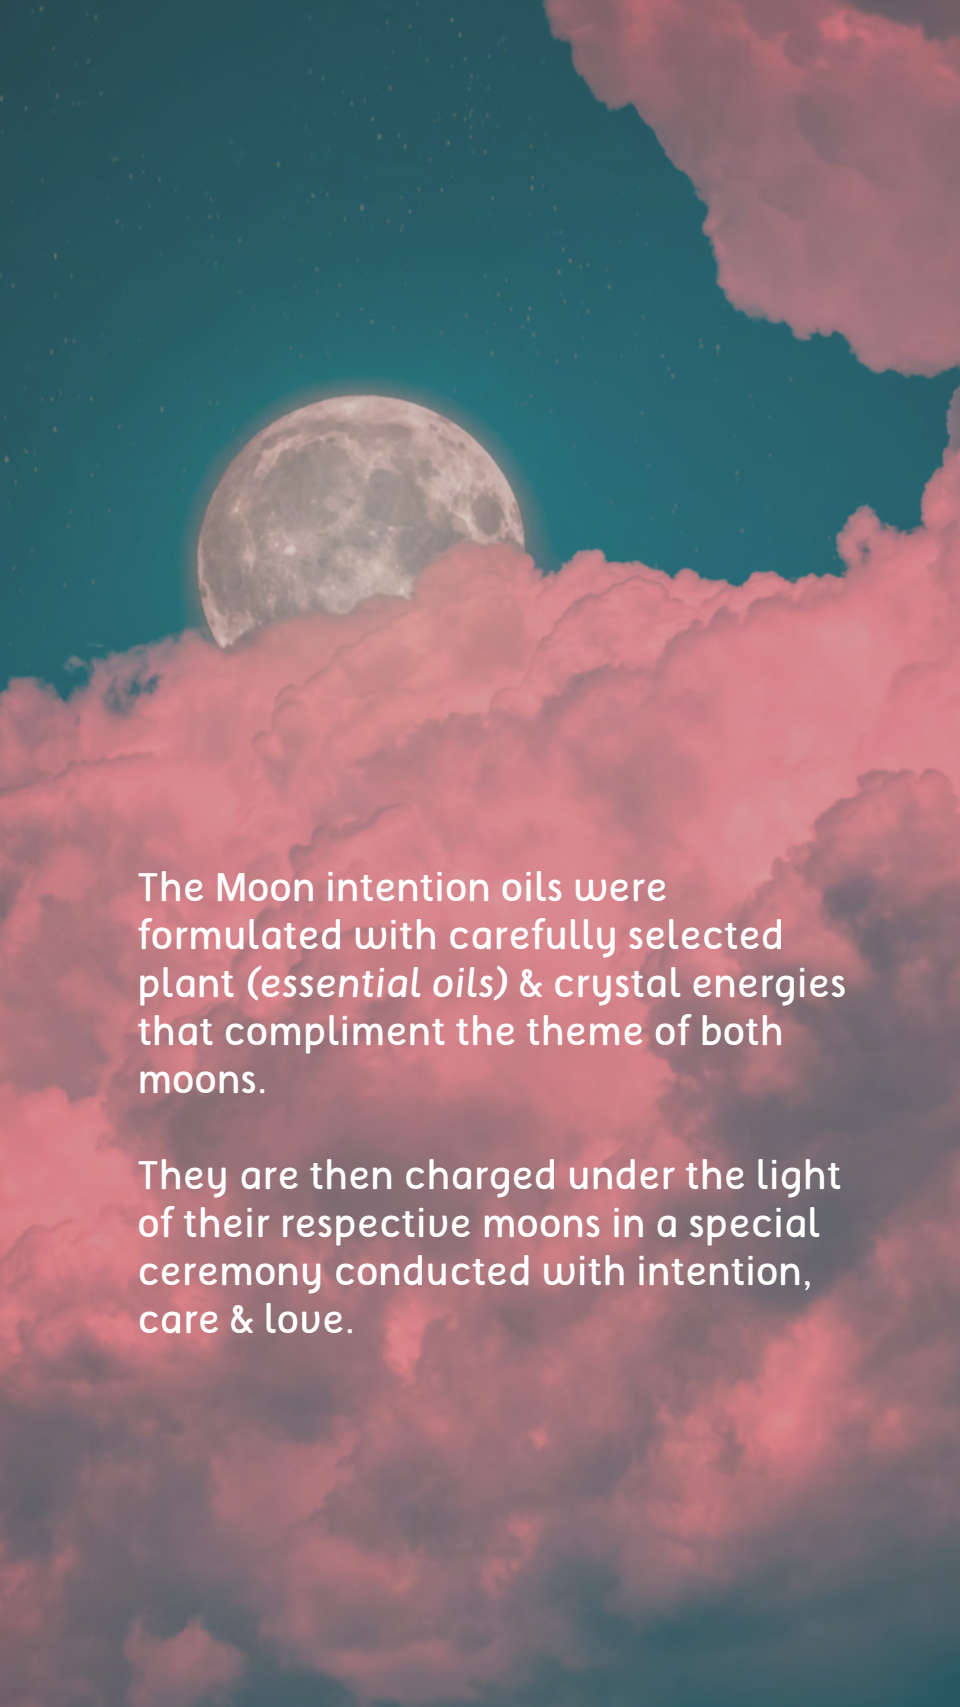

It's a magical time to connect to  
these energies for grounding  
& a sense of direction.

New moons mark the beginning of a lunar cycle and is an invitation to start fresh & begin anew.

Full moons signify the culmination of the 'harvest', with the energy reaching its peak, representing completion & abundance.

Both phases of the moon are potent moments in the lunar cycle for us to be receptive of the magic of growth, transformation & manifestation that can be utilized to enrich our lives.

The Moon intention oils were formulated with carefully selected plant (*essential oils*) & crystal energies that compliment the theme of both moons.

They are then charged under the light of their respective moons in a special ceremony conducted with intention, care & love.

HOW DO I  
**USE**  
THESE OILS?

There are many ways to incorporate these energetic infusions of liquid moonlight into your daily life & routine.

Most importantly, it is recommended to use them with intention. Think of them as the pure concentrated vibration of the combination of moon, crystal & plant energies lovingly distilled into a handy bottle.

Please take note that these blends are not to be taken internally and are not suitable for aromatherapy diffusers (the carrier oils are quite thick and may clog up the diffuser).

A single drop of oil is suspended at the tip of the dropper, just above a person's skin. The background is softly blurred, showing more of the person's skin and the hand holding the dropper.

# APPLY

Whenever you would like to connect with the energy of intention & transformation, place a few drops onto your chakras or pulse points and gently massage the oil onto those areas.

TIP : As you apply the oil, visualize and feel the emotions of your goals come true - this is a powerful energy to fuel your manifestation.

# MASSAGE

You can also place a few drops on your palms and rub them together, allowing the motion and heat to 'activate' the energy before massaging it onto your face, body or wherever feels good to you.

Please do a patch test beforehand to avoid any potential skin sensitivity issues.

# ANOINT

Add a few drops into your candles to amplify the high energetic vibration that was harnessed as the oil was lovingly charged & blessed under the moon.

It is not advisable to use the moon oils directly on your crystals as they may potentially affect the color and/or texture of the crystal's surface.

# DAILY REGIME

Add a few drops to your daily regime products (such as your shampoo, body wash, lotion, cream, room & linen sprays) to amplify & boost their desired effects.

# BATH

If you enjoy soaking in the tub, a few drops of the moon blend in the bath water is a wonderful way to cleanse, refresh & renew your energy.

# INTUITION

Follow your intuition to be guided on other ways you can connect with the energy of the moon blend oils. Let joy and ease be your guiding light.

As long as it is done with intention and respect, there is no wrong way!

Enjoy the experience of using these magical blends during the New Moon or Full Moon for potent change, transformation & manifestation.

You can also use these intention oils anytime (*outside of the lunar cycle*) whenever you may benefit from their energetic qualities.

New Moon & Full Moon intention oils are available in both 30ml full sized bottles and 10ml roll-ons.
