MOON

INTENTION OIL

COMPLETION
CELEBRATE
RELEASE

A large, glowing crescent moon dominates the upper half of the frame, its light reflecting on a body of water at the bottom. The sky is dark and filled with numerous small, distant stars. The overall mood is serene and mystical.

The moon's energy has the power
to control the ebb and flow of the
oceans & impact our mood & behaviors
- making it a highly influential force.

It's a magical time to connect to
these energies for grounding
& a sense of direction.

Full moons signify the culmination of the 'harvest', where the seeds planted during the new moon have fully bloomed.

This is a great space to reflect on the achievements that have been made or to acknowledge the growth that has taken place.

Take this time to celebrate the wins & feel into the energy of completion (*it could be either a work in progress or a major accomplishment*) – remember this feeling of achievement and let this be your default vibration moving forwards.

You've done it once – you can most definitely do it again!

Sometimes we unknowingly decide that the outcome has to be achieved in a certain way. Open your heart & mind to explore new ways of accomplishing your goals that may not have been apparent before.

Practice releasing any energies of *'why didn't it happen'* or *'I didn't accomplish as much as I expected'* & allow the magic to flow in its own way and time.

Most importantly, be patient with yourself (there may be other issues that may need to be cleared – if there is any, ask for them to be called into your awareness so that you can make the necessary shifts and regain your momentum).
