

The demands of the self-confident consumer on premium cosmetics are constantly growing. Individual skin care with ideally instant, visible results and maximum compatibility is th-erefore essential. Dr. RIMPLER Cosmetics is the perfect combination of natural and medicinal active ingredients. Through their application, these active ingredients can support medical and cosmetic therapy concepts and shorten treatment duration. Dr. RIMPLER Cosmetics – your skin expert!

BEAUTY IS'NT FOUND – IT'S DISCOVERD

On average, our body is covered in 2 m² of skin. Our skin is with us for life, so we need to treat it with care. Today, cosmetics can be much more than just beauty treatments. They are a modern form of preventative health care and can repair, stimulate, and balance skin function, as well as vitalize, hydrate and regenerate our skin.

The product range by Dr. RIMPLER Cosmetics boasts a total of 13 product lines, from gentle care for cosmetics beginners, to sun care, through to products for discerning cosmetics professionals.

Immerse yourself in the world of the skin expert!

THE SCIENCE

Dr. Christian Rimpler and his team of scientific employees have worked together for years with renowned German universities to unite the effects of highly-concentrated natural products with maximum compatibility. Our products are tested close to the skin and meet the international standards of the German Cosmetics Ordinance. On over 1800 m² of development, production and laboratory space, we have ultramodern machines and facilities at our disposal to produce ambitious and innovative products to a GMP-certified standard.

Innovation

RIMPLER Cosmetics develops with experts, innovative, modern and trendsetting treatment techniques.

Safety

RIMPLER Cosmetics produces to a GMP-certified standard with ultramodern production facilities in a clean room environment.

Quality

RIMPLER Cosmetics promises premium quality and consistent quality control through independent testing.

Consultation

Trust, humanity and expertise are essential factors for the success of the company.

THE COMPANY

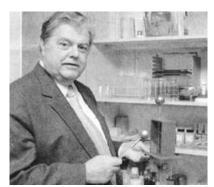

Since 1986, the family business RIMPLER COSMETICS has been an innovative developer with a scientific background, certified clean room production, and a worldwide operation of a multi-award-winning product range for the face and body. As an experienced specialist retail partner in professional depot cosmetics, we see intelligent skin care as modern, 21st century preventative health care. We rise to this challenge with all our passion and know-how, every single day. Trust the skin expert.

THE FUTURE IS ALSO A QUESTION OF ORIGIN

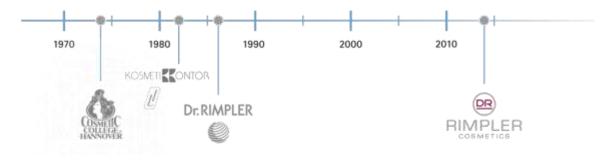

The foundation of the Cosmetic College Hannover in 1974 as a vocational college for cosmetics was the beginning of RIMPLER COSMETICS activities. RIMPLER COSMETICS was founded in 1987 by Professor Dr. Manfred Rimpler together with his wife, Anita Rimpler, and was continually expanded in the years that followed. After the first building phase, in 1992 the new company headquarters, with production facilities in the Hannover region, went into operation. With the constantly growing production of the premium professional depot cosmetics, Dr. Rimpler Cosmetics, and considerable growth nationally and internationally, the company, under the dedicated management of Dr. Christian Rimpler and his motivated employees, continues its success.

THE PROMISE

EFFICACY and SAFETY are the two cores attributes of the Dr. RIMPLER Cosmetics philosophy, and they are the principles behind all formulations. The use of highly-effective active natural products in combination with technological processing techniques is the result of the latest research and our promise to healthy, cared for skin. An exact dose yields the best results, so Dr. RIMPLER Cosmetics ensures that an ideal balance between efficacy and skin compatibility is achieved. Efficacy and safety – the promise of the skin expert.

THE PROMISE TO NATURE

Plant-based active ingredients, conservation of natural resources, and environmentally-friendly production are moral obligations for Dr. RIMPLER Cosmetics.

THE SALE TERRITORY

Whether at your own place or at the other end of the world: our DR. RIMPLER products are also available internationally. In over 40 countries around the world, our customers can obtain the highly effective products either through specialist retailers or a partnership-based cosmetic institute. It doesn't matter where you purchase our product range: Our high quality standards are guaranteed all over the world, guaranteeing fast treatment success.

COSMETIC ACTIVE INGREDIENTS

Average life expectancy has risen over the past 100 years from mid-40s to currently over 80 years. At the same time, the desire to stay beautiful and vital into old age is growing. It is therefore not surprising that, based on interdisciplinary research in chemistry, biology, medicine and pharmacology, a special industry has developed over the past 60 years that closes the gap between medicine and cosmetics: active ingredient cosmetics. Germany is one of the leading nations in this field.

SKIN DIAGNOSES ARE THE BASIS FOR THE USE COSMETIC ACTIVE INGREDIENTS

The use of highly active, bio-intelligent ingredients goes well beyond the previously known pure care. Even the legislature is finding it increasingly difficult to distinguish it from medicine. For the safe use of such products, a skin diagnosis, which should be reliably carried out by a well-trained beautician, is particularly important.

STATE APPROVED BEAUTIES - VOCATIONAL TRAINING INTRODUCED

For this reason, the founder of the brand Dr. RIMPLER, Prof. Dr. Manfred Rimpler, established the protected professional profile of the statecertified beautician in Germany over 40 years ago. From 1986 the vision of a functioning, scientifically developed, active ingredient cosmetics was implemented.

Nature meets Science

The focus of all efforts is maximum tolerance and safety with optimal effectiveness, which is why the Dr. RIMPLER doesn't let them be pigeonholed either.

Rather, under the slogan: "Nature meets Science" products are developed and manufactured in the clean room. As a consumer, you receive the maximum of what is currently allowed and possible in skin care. Thanks to this philosophy, we have already won several innovation awards and in many cases have received the highest recognition in the market.

ACTIVE INGREDIENT POWER

As a cosmetics developer, we take three paths to ensure sufficient active ingredient power:

- 1. Natural extracts from plants (herbs, medicinal plants, flowers, seeds, roots, nuts, kernels, fruits, leaves ...)
- 2. Bio-intelligent high-tech active ingredients from the retort, recreated with the exclusion of undesirable side effects.
- 3. With the combination of natural cosmetics and active ingredient cosmetics, the research and development of Dr. RIMPLER sets new standards and establishes "natural cosmetics". The best, the purest, the essence for guaranteed highest quality, safety and effectiveness on the border with medicine.

Responsible use of these sources makes cosmetics a component of modern health care in the 21st century. Put your skin to the test and let your trusted skin expert check what it needs most.

For the high-quality cosmetics and the company philosophy of Dr. RIMPLER, of course. Water treatment, waste separation, CO2 savings, energy consumption reduction and our own production from photovoltaics or the purchase of raw materials from certified cultivation areas, as well as the preferred use of fair-trade raw materials are for us the basis for a responsible approach to nature.

"As much nature as possible in combination with maximum effectiveness and a scientific background"

In the broad portfolio of the Dr. RIMPLER both pure organic products and vegan cosmetics and also real high-tech products with maximized effect.
